

BOH September 2017 Report

The School Nurse Coordinator continues to work with the School Department Administrators to launch the state mandated SBIRT Screening in our district.

A booster SBIRT Training was hosted at the School Department and approximately 125 Health Department & School Department staff members attended.

Epipen Training of School Department staff in each school building was completed.

The Nurse Coordinator & Nurse Managers give continued support to the School Department's Family Resource Center to ensure immunization compliance to all students entering the district.

The Coordinator & Nurse Managers have also attended the following community meetings: District wide Crisis team.
